## ABOUT DLPE ASIA

- DLPE Asia was first organized in the year 2013 and since then it has been progressively growing. DLPE Asia serves as a great platform for bringing together visitors from across the globe to interact and connect with the leading international Dairy, Livestock and Poultry technology companies.
- DLPE Asia is one of the prime Exhibitions on Dairy, Livestock and Poultry farming which covers all the major and minor aspects of the industry. This event on Dairy Technology, Poultry Farming Equipment's and Livestock Farming offers exhibitors the opportunity to promote their products and services to a highly engaged and targeted audience of Indian and international visitors in a focused business environment.

## ABOUT GPDFA

- GPDFA is the Pioneer organization working for the overall development of dairy farmers of Gujarat.
- It was established in 2010 under technical support of AMUL, Government & Semi Governments.
- Keeping in view the need of introducing new technology advance and entrepreneurship in dairy.
- GPDFA Enables all necessary Information to grow their dairy farms technologically with the help of the national and international companies.
- GPDFA Aims to create a new wave in dairy industry as a whole and aims to serve all Progressive Farmers to be benefitted by this organization.

**GPDFA**

## NETWORKING

This is the most comprehensive forum where international Dairy, livestock & Poultry industries executives, academia, institutional investors, venture capitalists, analysts, progressive farmers and other experts will have the opportunity to shape the future collaboration landscape of technology.

Registration on our website allows you to manage your meetings and at the same time profile yourself in the way that will attract potential business partners, investors and friends & This enables to pre-arrange one-on-one meetings in your desired areas.

# SCENARIO OF DLP INDUSTRY IN INDIA

India is World's highest livestock owner at about 512.05 million species.

It also provides employment to about 8.8% of the Indian population, majority of which is women.

India is the highest milk producer in the entire world.

Post Liberalization, the output of Dairy Industry in India is growing at 5% per annum. Currently, we are producing more than 13% of the total milk production of the world, yet the per capita milk availability is comparatively low.

Poultry industry, which started as a backyard activity, has now transformed into a well organized, scientifically oriented and technologically driven industry. Today, our Poultry industry is growing at around 10% per annum.
